### DETAILED ACTION

1. Claims 1-20 are presented for examination.

#### ***Claim Rejections - 35 USC § 112***

2. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

3. Claims 1-9 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The claimed limitation of "automatically ..." in claim 1, line 7 is not support by the specification. Applicant is requested to kindly point out where in the specification such feature of "automatically specifying" is disclosed.

#### ***Allowable Subject Matter***

4. Claims 10-20 are allowed over the prior art of record since none of the prior art of record teaches or fairly suggests the claimed feature of "memory window manager", as recited in the independent claim 10, lines 5-9, and claim 20, lines 5-31.

#### ***Conclusion***
